

FASA Advisory Group Recommendations 08/02/22

Total Recommended Awards for August: \$1,200.00

Total Number of Applicants: 1

Application 1

Applicant Name: Tom Rebold

Category: Other (Student Internships)

Division/Department: Computer Science and Information Systems (CSIS)

Faculty or Staff: Full-Time Faculty

Amount Requested: \$1,200.00

Project Purpose: To pay internship stipends for two students who are not covered or eligible for stipends under existing grants. Students are working on two different projects. One student is working to develop the web software tools used to manage student project submissions for peer grading and develop an alternative coding assessment option for students to evaluate the effectiveness of their programs, which could result in cheaper textbook options for students. The other will be beta-testing the revised CSIS10C labs to be used in the fall, which will improve the classroom experience for all of our students.

Recommendation: Group recommends approval of \$1,200.00
