students'
potential**

learning beyond the classroom

Sarah—Pre-Medicine/Biology
Faculty & Staff Advancement Award

“My dream is to become a doctor/scientist. This past summer was life-changing! I had the chance to do research and present that research at a national conference. It feels surreal and I still have goosebumps! It’s so amazing to me that this is only the beginning.”

The Faculty & Staff Advancement Award (FASA)

program empowers faculty, staff, and students to engage in meaningful projects that enhance the learning experience.

Richardo—Business Administration
Internship Program Participant

“Through my internship at MTI Jet Center, I have been able to enhance my professional skills and break free from inhibitions that formerly hindered my professional growth. It has boosted my confidence to one day excel in a career position.”

Internships help students clarify career goals, build professional networks, gain valuable skills and experience, and ultimately lead to job placement.

Elizabeth—Medical Assisting & Business Major
Evans College Incentive Program Participant

“

When I got accepted into the Evans program, I was beyond grateful to know that there was someone who was pushing me to continue my education and someone who had faith in me. I really doubted myself and didn't think I could register for college, but next year, I'll be graduating with my associates degree in medical assisting, billing, and health administration! Being in this program has greatly impacted my life.”

The Evans College Incentive Program opens the door for underprivileged local high school seniors to attend MPC and receive wraparound support.

facilitating achievement

empowering future leaders

Scholarships help students thrive and achieve their aspirations, providing not just financial support, but a boost of encouragement.

“

This scholarship means so much to me and my family. I grew up in Monterey and was fortunate to attend MPC, where I learned so much that will stay with me. Receiving a scholarship not only helps take some of the financial weight off my shoulders as I transfer to a university - it is an honor, and I am so grateful to have been selected."

Joshua—Communications Major
Scholarship Recipient

Christina—Education Major
Emergency Assistance Grant Recipient

“

This support showed up at the perfect moment in time as a financial catastrophic event in my life was taking place. MPC has truly been my refuge and a place where people are positive and want you to do well. I am forever grateful.”

Emergency Assistance grants ensure students can remain enrolled at MPC even when faced with an unexpected financial crisis.

expanding opportunities

The MPC Foundation is a non-profit organization supported by community members and organizations who believe in the power of education. The number of students we support each year is directly impacted by your generous contributions.

If you would like to help a student fulfill their potential, visit mpcfoundation.org/potential or contact Beccie or Gina.
